

It is important that CAEP have accurate and current contact information about your professional education unit. In order to maintain secure and reliable communications this is how CAEP will distribute information: The EPP Head will receive all billing correspondence, the EPP Head and CEO will receive all Accreditation communications and all other communications will be sent to the EPP Head, CAEP Coordinators and CEO.

To update information, click in the box next to the field that you would like to change and type the new information in the textbox. Click "Submit" to enter your updated information. CAEP staff will contact the CAEP coordinator and dean to confirm the change before it is accepted in the AIMS database.
